Using LockDown Browser and a Webcam for Online Exams

This exam requires the use of LockDown Browser and a webcam. The webcam can be built into your computer or can be the type that plugs in with a USB cable. Watch this short video to get a basic understanding of LockDown Browser and the webcam feature. A student Quick Start Guide is also available.

Then download and install LockDown Browser from this link: UHCL-specific LockDown Browser Download and Information for Students. Once you have downloaded and installed LockDown browser, you will use it **in place of Chrome, Firefox, or another browser**, to access Blackboard to take this exam.

The basic steps for taking an online quiz or test that requires LockDown Browser and Monitor are as follows:

- Close all open applications and tools on your computer.
- Start LockDown Browser (instead of using Chrome, Firefox, or another browser).
- Log into Blackboard and select the course in which you need to complete the test.
- Locate the exam that you need to take and click it.
- Upon completing and submitting the quiz/exam, exit LockDown Browser.

When taking an online exam that requires LockDown Browser and a webcam, remember the following guidelines:

- Ensure you're in a location where you won't be interrupted
- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach
- Clear your desk of all external materials not permitted — books, papers, other devices
- Before starting the test, know how much time is available for it, and that you've allotted sufficient time to complete it
- Remain at your computer for the duration of the test
- If the computer or networking environment is different than what was used previously with the **Webcam Check** and **System & Network Check** in LockDown Browser, run the checks again prior to starting the test
- To produce a good webcam video, do the following:
    - Avoid wearing baseball caps or hats with brims
    - Ensure your computer or tablet is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed or other surface where the device (or you) are likely to move
    - If using a built-in webcam, avoid tilting the screen after the webcam setup is complete
    - Take the exam in a well-lit room and avoid backlighting, such as sitting with your back to a window
- Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted
