HOW TO STUDY FOR THIS COURSE:
Read the textbook chapters and do the discussion questions. Read the end of chapter discussion question, take a guess at the answer without looking it up in the chapter, and then read the answer. Do not stop and try to find the answer in the chapter. Looking back will increase your study time significantly and you will not have made a mental commitment to answering the questions. The discussion questions and answers are designed to highlight and help explain the important points in the chapter.

Incomplete Grades:
For emergency situations that occur after the "Drop" date, a grade of incomplete ("I") may be given to students who are making satisfactory progress. Failing grades do not constitute an emergency.

Last Day to Drop:
Check the University calendar for the last day to drop/withdraw from this course without grade penalty. Withdrawals from the course must be filed in the Office of Enrollment Services. Students who stop attending class without officially dropping the course will receive a failing grade in the course.

6 Drop Rule:
Students who entered college for the first time in Fall 2007 or later should be aware of the course drop limitation imposed by the Texas Legislature. Dropping this or any other course between the first day of class and the census date for the semester/session does not affect your 6-drop rule count. Dropping a course between the census date and the last day to drop a class for the semester/session will count as one of your 6 permitted drops. You should take this into consideration before dropping this or any other course. Visit www.uhcl.edu/records for more information on the 6-drop rule and the census date information for the semester/session.

Assessment Statement:
The University of Houston-Clear Lake may use educational assessment tools in this course. "Educational Assessment" is defined as the systematic collection, interpretation, and use of information about student demographics, educational environments, learning outcomes, and professional success. These assessment tools will not affect student grades, but will provide faculty with confidential detailed information that will be used to improve student learning, courses, curriculum, and program accreditation.

This assessment will be related to the learning objectives for each course and individual student performance will be disaggregated relative to these objectives. This disaggregated analysis will not impact student grades, but will provide faculty with detailed information that will be used to improve courses, curriculum, and students' performance.

Academic Honesty
The Academic Honesty Policy at UHCL (found on the Dean of Students' website, the Faculty Handbook, the Student Handbook, the Senior Vice President and Provost's website, the Graduate Catalog, and the Undergraduate Catalog) states: Academic honesty is the cornerstone of the academic integrity of the university. It is the foundation upon which the student builds personal integrity and establishes a standard of personal behavior. Because honesty and integrity are such important factors in the professional community, you should be aware that failure to perform within the bounds of these ethical standards is sufficient grounds to receive a grade of "F" in this course and be recommended for suspension from UHCL. The Honesty Code of UHCL states "I will be honest in all my academic activities and will not tolerate dishonesty."

Special Academic Accommodations:
The University of Houston System complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 pertaining to the provision of reasonable academic adjustments/auxiliary aids for students who have a disability.
