Math 1324-01 Math for Business and Social Science
Spring 2022

Instructor:	Michael Heerey	**Office hours:**	Mo 1:00-2:30	**Class Time:**	MoWe
Office:	Bayou 3521-13		Tu 2:30-3:50		5:30pm-6:50pm
E-mail:	heerey@uhcl.edu		We 1:00-2:30	**Class Location:**	Bayou 2122 and
Phone:	281-283-3731		Th 2:30-3:50		Zoom

Course Materials:

Textbook: *Mathematical Applications for the Management, Life, and Social Sciences* by Harshbarger, 12th edition
We do not use the textbook in class, but it is strongly recommended that you read each section of the textbook before we cover it in class. Getting exposure to the topics multiple times with multiple perspectives can help you better to grasp the concepts. A physical copy of the textbook is optional. If you buy a physical copy of the textbook, **make sure it comes with a WebAssign access code**. You may instead purchase just a WebAssign access code, which gives you access to a digital version of the textbook. Another option is to subscribe to Cengage Unlimited, which will give you access to WebAssign for the class and the digital textbook.

Calculators: There will be nothing you are tested or quizzed on that will require a graphing calculator, but you are free to use any calculator (of course not a cell phone application) as long as it does not have a CAS (computer algebra system). Prohibited calculators include the TI-Nspire if it says "CAS" in the corner and the TI-89. Exams may consist of portions where you are allowed to use a calculator and portions where you are not allowed to use a calculator. If you are not sure about your particular calculator, please ask me.

Online homework: All of the homework for this class will be done online through WebAssign. As soon as possible, register for the course at https://webassign.com (click on "ENTER CLASS KEY"). The class key is **uhcl 6361 8298**. You must also have an access code for the course, which may be purchased bundled with the textbook or separately. Please let me know if you have any trouble getting registered on WebAssign. Homework is an extremely important tool in learning the material. Please take homework seriously, as doing so will help you perform better on exams.

Learning Objectives – Upon successful completion of this course, students will:

1. Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic, and exponential functions to solving real-world problems.
2. Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.
3. Apply basic matrix operations, including linear programming methods, to solve application problems.
4. Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.
5. Apply matrix skills and probability analyses to model applications to solve real-world problems.

Course Policies:

Make-up exams: If you miss one of the midterm exams, then your score on the final exam will become your score on that midterm. (It will be recorded as a 0 and count as that in your grade until the final exam replaces it.) Make-up exams are not given.

Make-up quizzes: Make-up quizzes are not given. If you miss the quiz then your score is 0. To account for personal emergencies, your lowest quiz score will be dropped. There will be four quizzes, and each should be announced at least one week in advance.

Late homework: For online homework, you may request extension within five days of a homework due date, which will extend the due date to five days after the original due date. This will result in a 50% grade reduction in any work not completed before the due date. If you make an extension request in WebAssign within the extension window it will be granted automatically and must be completed within five days of the original due date.

Honesty Policy: The Honesty Code is the university community's standard of honesty and is endorsed by all members of the University of Houston Clear Lake academic community. Each student should follow the following creed: *I will be honest in all academic activities and will not tolerate dishonesty*.

Disabilities Policy: If you are certified as disabled and entitled to accommodation under the ADA, section 503, please notify me as soon as possible. If you will require special academic accommodations, please contact the Disability Services Office at 281-283-2627.

6 Drop Rule Limitation: Students who entered college for the first time in Fall 2007 or later should be aware of the course drop limitation imposed by the Texas Legislature. Dropping this or any other course between the first day of class and the census date for the semester/session does not affect your 6 drop rule count. **Dropping a course between the census date and the last day to drop a class for the semester/session will count as one of your 6 permitted drops. You should take this into consideration before dropping this or any other course.** Visit www.uhcl.edu/records for more information on the 6 drop rule and the census date information for the semester/session.

Attendance: Class meetings are usually held on Zoom. The link to the classroom can always be found on Blackboard. If you miss class, there are videos available on Blackboard that cover the same notes covered in class. On exam days (listed on the calendar on the next page) we will meet on campus. **Exams are all taken in the classroom on campus, not online**. Please make sure you set aside those days to be on campus during class. We may have a few other class meetings on campus, and if that is the case you will receive plenty of notification. I will usually be in the Zoom room about 30 minutes before class, and could stay around after class, in case you have some questions you would like to ask

Grades: Your three lowest homework scores will be dropped and the average grade of your remaining assignments will be your homework grade. Your lowest quiz score will be dropped and the average grade of your remaining quizzes will be your quiz grade. If your score on the final exam is higher than at least one of your exam scores, then your score on the final exam will replace your lowest exam score in addition to counting as its own grade. This happens if you miss an exam or if your final exam score is just better than one of your midterm scores. Your overall grade is determined by: homework (20%), quizzes (10%), midterms (45%), final exam (25%). Your grade will be rounded to the nearest tenth to determine your letter grade.
93.0 – 100 A; 90.0 – 92.9 A-; 87.0 – 89.9 B+; 83.0 – 86.9 B; 80.0 – 82.9 B-; 77.0 – 79.9 C+; 73.0 – 76.9 C; 70.0 – 72.9 C-; 67.0 – 69.9 D+; 63.0 – 66.9 D; 60.0 – 62.9 D-; 0 – 59.9 F

Syllabus Changes

Due to the changing nature of the COVID-19 pandemic, please note that the instructor may need to make modifications to the course syllabus and may do so at any time. Notice of such changes will be announced as quickly as possible through email, Blackboard, and WebAssign.

We will be following the schedule below. It is possible we will get a little ahead of or behind schedule, but that would not affect the test dates. Please note the following dates.

February 2 – Census Date
March 14-20 – Spring Break
April 12 – Last Day to Drop/Withdraw
Monday, May 9 – Final Exam 4:00pm – 6:50pm

Week	Date	Sections Covered
1		
	We 1/19	Class intro
2	Mo 1/24	1.1
	We 1/26	1.2
3	Mo 1/31	1.3, 1.4
	We 2/2	1.4, 1.5
4	Mo 2/7	1.6, 2.1
	We 2/9	2.1, 2.2
5	Mo 2/14	2.3, 2.4
	We 2/16	2.4, 3.1
6	Mo 2/21	**Exam 1 – 1.1-2.3**
	We 2/23	3.1, 3.2
7	Mo 2/28	3.3, 4.1
	We 3/2	4.1, 4.2
8	Mo 3/7	4.3
	We 3/9	5.1, 5.2

Week	Date	Sections Covered
9	Mo 3/14	Spring Break
	We 3/16	Spring Break
10	Mo 3/21	5.2, 5.3
	We 3/23	6.1, 6.2
11	Mo 3/28	**Exam 2 – 3.1-5.3**
	We 3/30	6.2, 6.3
12	Mo 4/4	6.4, 6.5
	We 4/6	6.5, 7.1
13	Mo 4/11	7.2, 7.3
	We 4/13	7.4
14	Mo 4/18	8.3
	We 4/20	Review/catch up
15	Mo 4/25	**Exam 3 – 6.1-8.3**
	We 4/27	Review for final
16	Mo 5/2	Review for final
17	Mo 5/9	**Final Exam**
